

HUNTER

Communications

Frequently Asked Questions about Hunter's Free Expo Wireless Service:

What network settings do I need to use?

Set your wireless card to use DHCP- obtain an IP address automatically.

Why won't my Email/Virtual Private Network/Internet messenger software work?

For security reasons, the only service allowed over Hunter's wireless is web browsing. You may send email through a webmail provider like Gmail, Hotmail, or Yahoo. If you require VPN access, Hunter can accommodate your client software at cost (please call for pricing).

What areas of the Expo are covered by Hunter's wireless?

The interior of the Seven Feathers Event Center, Padgham Pavilion, Mace Watchable Wildlife Building, and the Bi-Mart Amphitheater ,(dependent on weather). Service can be made available in other areas, subject to fee. Please contact Hunter for more information.

What if my wireless stops working, I need more reliable service during an event?

Hunter provides the wireless service at the Expo as a free service, and as such does not guarantee connectivity. If your needs dictate a higher level of service, including support, please call us for more information on available service.

What other service does Hunter Communications provide?

Hunter Communications owns and operates Oregon's largest privately held airwave network, providing high-bandwidth point to point and internet connectivity to Southern Oregon business. Hunter also provides full IT service support, consulting, and is a licensed limited energy contractor specializing in local area network cabling.
